To the student: Cut out all of your deposit slips and staple behind your checks. Don't forget to fill in your account number. Complete one of these every time you have money to deposit into your account.

To the teacher: Copy at least two pages of deposit slips for each student. Provide a box for collecting deposit slips and a box for checks paid. These can be used to complete the bank statements later in the simulation.

To the student: Cut out all of your checks. Write your name, account number, and check number on each of your checks. Place in order and staple with your deposit slips at the bottom half of your folded checkbook cover.

To the teacher: Copy at least five pages of checks for each student. Provide students with a checkbook cover 6" square. Ideally, this should be made out of a sturdy paper and laminated for durability.
